

**Functional Laboratory Testing aimed at personalized nutrition and prevention of chronic inflammation and autoimmune disease.**

Cell Science Systems GmbH (CSS) is the Europe-wide provider of the Alcat Test for food/chemical sensitivity and related health communication. Independent studies of universities e.g. Yale School of Medicine, University of Illinois, Baylor Medical College or the University of Pavia confirm the effectiveness of the Alcat Test and that the direct cell response is a scientifically based way to identify immunologically complex and often delayed immune reactions.

The Cellular Nutrition Assays are now available in combination with the Alcat Test.
